Their superior content of EGCG (Epigallocatechin Gallate) make them the an extraordinary herbal gift to us from nature. There is no other drink with as many scientifically proven benefits as White and Green Tea.

We take no credit for this wonderful Gift. However, we take pride in the extreme quality we put into each serving of White Tea Blend. The amount of extract we have in each serving equals to the consumption of up to 70 cups of regular green tea. In addition to the tea's perfect blend we add a substantial amount of super fruits which multiply the health benefits of the Green and White Teas alone.

We encourage you savor each serving of this wonderful supplement, warm or cold, with gratitude. In doing so, you may receive an abundance of spiritual, emotional and mental health benefits in other words.... you will receive "Soul Benefits".

White Tea Blend has built on the nutrient-rich extracts of green tea and white tea by adding extracts and fruit powders of these important Super Fruits. We have selected the best Super Fruits from different areas of the world to ensure the balance and the widest array of important nutrients. The result is a unique blend that gives the synergistic benefits of tea and the super fruits. Below is a short description of each of the super fruits in White Tea Blend.
